Due to the general ignorance of the dynamics of Canada and Canada's strategic role within the British Empire's global great game, Cynthia and I decided team up with film maker Jason Dahl and narrator Hugh Trudeau to create a 34 minute feature film titled 'Mark Carney's Dystopic Pedigree'.

What you will learn in this movie:

You will learn about the origins, purpose and continuing influence of Cecil Rhodes' Roundtable movement, and the multi-generational Rhodes Scholar indoctrination program that interfaced with a small array of Royal Institutes (with an American branch dubbed 'The Council on Foreign Relations').

You will learn about the revival of the fascist Technocracy Incorporated program for a scientifically managed world order, once led by Elon Musk's Canadian grandfather Joshua Haldeman, and you will learn about a nest of Rhodes Scholars and Privy Councillors who shaped something known as a 'North American Union' in 2007.

You will learn about Carney's role as a modern high priest of Central Banking who both helped design the global derivatives time bomb threatening to destroy the world economy, on top of crafting "the solution" to said calamity in the form of a global Bail-In Regime and a new green financial architecture.

You will learn about the legacy of Maurice Strong, Pierre Trudeau and the Club of Rome which continues to exert influence over both Canada and the UN as a whole, and you will learn about the Fabian Society's influence over Canada from 1931 to the present.

LASTLY, you will learn about the Extinction Rebellion as a controlled opposition movement, managed by handlers at the Royal Institute for International Affairs (aka: Chatham House) which Carney served as president until becoming Prime Minister of Canada.

I hope that this journey provides you the mental and spiritual resources you need to navigate the coming storm and I also hope that the insight into practicable policy-solutions are taken seriously for all citizens and policy makers.
